GENERAL RULES

1. A fair gameplay is required from all participants, there is no place for cheating, hacking or use of any other type of unfair means will be considered as punishable conduct.
2. Any player doing such unfair act will be banned for future tournaments hosted by BD71 eSports.
3. The team consisting such cheater/hacker also be banned for this tournament.
4. Upon post-match analysis, if any unfair activity found by any player or team, necessary steps will be taken by authority.

MANDATORY REQUIREMENT

It is mandatory for all players to run MOSS and share the MOSS files for all maps in a single Google Drive folder. This folder must then be shared with the admin.

How to use MOSS:

- 1) Download it from <https://nohope.eu> home page
- 2) Unzip the file, it's protected with a password "Moss" to limit Antivirus paranoia, so you need tools like winrar or anything similar.
- 3) Run it as administrator, otherwise it will refuse to start.
- 4) Choose PlayerUnknown's Battlegrounds game in File/Parameters in the upper left corner.
- 5) Start monitoring in Capture / Start, you are now able to start the game and play.
- 6) Once the game is finished, you have to stop the monitoring by Capture / Stop.
- 7) The file containing all the monitoring information will be in the same directory as the Mossx64.exe file. Do the same for each map.
- 8) Moss files will be checked and be shared publicly for examination to ensure more transparency.
- 9) **DO NOT EDIT OR ALTER THE MOSS FILE IN ANYWAY!**

REGISTRATION

- ✓ No registration fee for this tournament.
- ✓ Only gmail is allowed during registration.
